Dear

I received your very interesting proposal on the development of an Underwater Rocket Gun. As you may know, work of this nature is sponsored by another unit of our Agency and I have taken the liberty of sending them your proposal. Should they have any interest in following up, I am sure they will contact you directly.

Thank you very much for bringing these ideas to our attention and we appreciate your interest in our problems.

Sincerely,

Signed Herbert Scoville, Jr.
